UNDARA LAVA TUBES TOUR

Cobbold Gorge has been conducting tours into the Undara National Park since 2025 as Undara Lava Tube Tours.

This is a place where nature's story is etched into stone. A vast underground network of lava tubes and tunnels, winding their way through and under the savannah grasslands. It's a place to learn more about Australia's geological past as you explore above and below the ground, with experienced guides pointing out key features of the tube system and surrounding landscape.

On our 3 hour Undara Lava Tube tours, you'll explore 4 of the tunnels, including the showcase Arch Complex incorporating the Archway, Ewamian and Stephenson's Tubes and stopping of at another outreaching cave. An air-conditioned coach will take you into the National Park and our experienced guides will share stories of the history and geology of the lava tubes. On arrival it's off the bus and into the lava tube, where you'll learn more and be surrounded by the cavernous rock walls, which are marbled with mineral colours and shaped by the flow of the long-since-gone lava.

Available daily 1 May - 30 October. Tour Times 9.30am daily and 1.30pm in peak and as required. A wheelchair/accessible bus is available for a 2 hour tour featuring a chairlift into Collins Tube. Times vary, pre-bookings essential. *Child: Aged 5 to 15 years.
